## PROJECT & STUDIES

- 16th International METU Robotics Days - Line follower robot
- I worked in the technical team at Iztech Roboleague 19.
- Futro (Robot that can play football via Bluetooth connection)
- Code Of Duty 20 Design Team Coordinator (canceled 2 weeks before due to Covid-19)
- Teknofest SIHA - I have worked on systems to detect, shoot and track any target UAVs. (canceled due to Covid-19)
- I worked on artificial intelligence-analytical methods for anomaly detection and also using AWS in some point. I also worked on microprocessors (Raspberry pi) and backend with Python in UDA.
- Our team 5th in ICS-CTF-2022
- I achieved high success in NLP, Machine Learning and Deep Learning courses on my specific field.
